

## Up to 2x the press-fit<sup>1†</sup>

Compared to the clinically proven Natural-Knee® II.

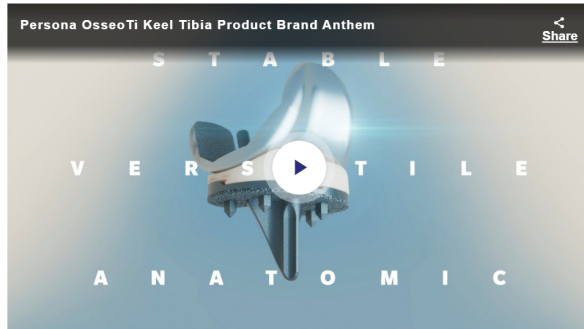

Download the white paper now.

**Stable initial and biological fixation** through the progressive press-fit of the keel and pegs.<sup>1</sup>

**Versatile system** design allows for selection between cementless or cemented procedures intra-operatively up until final implantation with no additional bone prep.

**Anatomic tibia** for proper rotation and optimal bone coverage paired with the Medial Congruent® Bearing to improve knee stability.<sup>1</sup>

**Sign up now to get instant access to Persona OsseoTi Keel Tibia's white paper on its Stable Initial Fixation.**
